For Sale Spring of 1927, by

H. W. JENKINS & SON
Carthage, Missouri

SLOGAN:

"Every Plant a Live One When Delivered"

MISSOURI STATE PLANT BOARD
Office of Chief Inspector, Columbia, Mo.

CERTIFICATE OF NURSERY INSPECTION

No. 1c 65

Issued 10-11, 1926

This is to certify that in accordance with the provision of the Missouri Plant Act of 1925, the nursery and premises thereof belonging to H. W. Jenkins & Son of Carthage, Mo. have been inspected by a duly authorized inspector and were found to be apparently free of injurious insects, pests and plant diseases. This certificate is not transferable and may be revoked for cause.

This certificate expires September 1, 1927.

L. HASEMAN, Chief Inspector

Terms of Sale

Cash with order or satisfactory references. When you have received your order and examined it, if it is bad condition or not satisfactory or not as represented, repack, prepay return charges, and return at once, where your order will be either replaced or your money refunded. After plants are accepted they are yours and you must assume all risks and care as we cannot take your risks and assume responsibility for failures over which we have no control. But on proof of same, will replace any trees or plants that do not prove true. We prepay all Parcel Post shipping charges. All bulky packages that go by express, charges are to be paid by the customer. The prices quoted in this list mean exactly what your order will cost either delivered at your mail box or at the express office here.

Ready to serve you

H. W. JENKINS & SON

1701 River St., Carthage, Mo.

Special Notice

On the inside cover back page will be found an advertisement of our neighbor, E. L. Patten, Poultryman. The fact that we let him use this page should satisfy you that we consider him a safe man to deal with. Mr. Patten is also the President of the Carthage Berry Growers Ass'n. He knows chickens and berries. Not necessary to say more.

Personal Pointers.

Dear Customers, Past, Present and Future:

We wish we could meet each one of you face to face and get acquainted personally and have a talk about our trees and plants that we offer for sale: and also consult with you about your plans and wants for your spring planting in this new year of 1927. But as that is not possible the only way we can reach you is to offer you our modest little descriptive Price List which we here present you, with our best wishes and thanks for your patronage in the past and hope it may be of some service and help to you in your selections of varieties and also in the care of same for the new year. Now, just before us,—from a climatic point of view the past year of 1926 was a very erratic one, full of extremes, cold and hot, wet and dry, and it has taken an unusual amount of labor and care to produce good trees and plants. But by staying on the job from early to late, April to November, our stock has made a very satisfactory growth and we feel quite sure with our careful personal method of grading and packing that we can please the most exacting customer. We not only aim to keep our trees and plants clean of weeds, but are doing our best to do a clean business in selling our stock, by dealing direct with our customers, giving them exactly what they order without any exaggeration or deception. (This cannot or rather is not done when and where agents are employed.) We make no claims to be the only firm who grows and sells reliable nursery stock, neither do we boast about what our grandfathers did. It is what we do that you are interested in. We have just one way of selling and that is direct, (two parties, you and us) and when you receive your order and examine it, if it is not all right and as represented, fire it back to us at our expense and your money will be refunded or stock replaced. You must be satisfied or no sale made. If this method of doing business appeals to you as safe, sane and sensible, then send us your orders which will be acknowledged the same day and printed instructions will be sent you on care and planting. Appreciating all orders small or large and with best wishes for your success, we are ready to be at your service,

H. W. JENKINS & SON, Carthage, Mo.

STRAWBERRIES

Our second year's experience in growing strawberries here at Carthage has not changed our opinion in regard to its being a good place to grow them. This black silt soil seems to suit them as it produces a fine, well rooted plant and you must have good stocky plants in order to get good berries. But a soil that produces good berry plants also produces a big crop of weeds so it takes a lot of work to keep a field clean of weeds from April to November and you can see by the photo of one of our fields taken November 2, that it is clean. This labor sure costs money but you can't grow good plants and a crop of weeds and grass at the same time. We saw plants delivered here last spring that it would take a hundred of them to make a package as large as twenty-five of our plants. These plants were sold **cheap** and they were sure enough **cheap plants** sold for all they were worth. We do not grow, handle or sell such plants and will not try to meet such competition. Our plants and packing are in a different class by themselves. Don't take our word for this but send and get a sample of each and then compare and if the other fellows plants suit you best then he is the man to buy from. Our prices are some higher than others have to because they are better plants and better packed and worth more.

VARIETIES: We are only growing three varieties but they are all good ones, leaders in their classes, the ones that makes the berries that fills the boxes and crates. It don't pay to waste ground on worthless varieties. Our varieties are true. We do not substitute without your consent, and then put the correct name on the package. We live up to our slogan of "Every plant a live one when delivered," guaranteeing them to reach you in good live condition. If not, return them at once and we will either replace or refund your money. The **HAVERLAND** is the only pistillate variety that requires other plants to fertilize the bloom. The **DUNLAP** and **AROMA** are both staminate

varieties and do not require others planted with them. All plants by Parcel Post prepaid by us, shipped by Express charges paid by customer.

VARIETIES

HAVERLAND-(P) Plant stocky and healthy but requires a good soil and good care, but is wonderfully productive. Sets so many berries the fruit stalks can't hold them up off the ground. For this reason in a very wet season berries will rot if not kept well picked. Berries are large, long, pointed in shape, well colored and smooth; a fine variety for home use or local market.

	Per 100	300	500	1000
Price of plants Parcel Post	\$1.00	2.50	3.50	6.00
Price of plants Express paid by customer				5.00

SENATOR DUNLAP-This variety originated in Illinois. It is a strong vigorous grown plant, healthy, makes lots of runners and new plants that have long roots and it will stand more drought and hard knocks than other varieties. It is a strong staminate variety, a good fertilizer for the Haverland—very productive of large well shaped high colored berries. The most popular berry in central and north Missouri. You will not go wrong in planting this for home use or local market.

	Per 100	300	500	1000
Price by Parcel Post	\$1.00	2.50	3.50	6.00
Price by Express paid by customer				5.00

AROMA-Plant stocky and healthy. Don't make as many runners or plants as the Dunlap, but a plenty. Berries large, smooth, conical in shape, well colored, ripens late. The Aroma is the commercial berry of the Ozarks that is shipped to New Orleans or Winnipeg, Denver or Boston by the train load. Not so productive in North Missouri.

	Per 100	300	500	1000
Price by Parcel Post prepaid--	\$1.00	2.50	3.50	6.00
Price by Express paid by customer				5.00

RASPBERRIES

The raspberry is held in high estimation by nearly everybody as one of the most agreeable sub-acid fruits, not only for dessert but also for making jams, jellies, sauces etc. Succeeding the strawberry at the beginning of summer when there is little else makes it almost invaluable in supplying the table with delicacies at that season of the year. We find that the Black Caps grown here in Southwest Missouri are nearly free from Anthracnose, a disease that attacks the canes so badly in many places.

Raspberries are divided into two families—the Blacks which propagate from the tips and the Reds from the roots.

VARIETIES

CUMBERLAND—This was called by the originator “The Business Black Cap.” It is a very productive variety, medium to late in ripening. The berries are large. Originated in the Cumberland Mountains of Pennsylvania.

	Per 25	100	500
Price for tip plants by Parcel Post	\$1.00	3.00	12.50
Price for tip plants by Express, paid by customer.....		2.50	10.00

GREGG—An old standard late variety. Berries large and firm.

	Per 25	100
Price.....	\$1.00	3.00

ST. REGIS—A vigorous, hardy, red variety. First crop prolific but medium in size. Sold by some as an ever-bearer. With us later crops are not of much value.

	Per 25	100
Price.....	\$1.00	3.00

CUTHBERT—This is a late berry, much larger than St. Regis. Not as productive but better quality. In some places susceptible to gall knots on roots, but a fine berry.

	Per 25	100
Price.....	\$1.00	3.00

LATHAM—A new Red variety which originated in Minnesota said to be a very fine productive variety and exceptionally free from Mosaic disease.

Price, Each.....	10
------------------	-------	----

BLACKBERRIES

Are sometimes called the poor man's berry. We suppose because they are found growing wild in the woods and pastures and along the roadsides. But the number of wild berries is growing less and less each year, so the only safe plan to be sure of that blackberry jam is to plant and care for a patch of tame berries.

EARLY HARVEST-Small bushy canes, hardy and productive. Berries medium in size—always ripe at wheat harvest.

	Per 25	100
Price.....	\$1.00	3.00

ELDORADO-A vigorous grower, strong, healthy canes. Matures the wood in good condition so does not winter-kill. Canes not much affected by Red Rust. Berries are very large, jet black and easily picked separate from stem. Do not ripen all at once. It is the best all round berry we have ever grown. Stock limited.

	Per 25	100
Price	\$1.25	4.00

CURRANTS

The best small fruit for jelly. Also fine for pies when green. The first fruit of the season ready for use.

WILDER-A fine large red variety.

	Each	10
Price.....	\$0.25	2.00

PERFECTION-An extra fine red variety.

	Each	10
Price.....	\$0.30	2.50

Note: Currant bushes offered are Fredonia, New York grown. This means the best on the market.

Currants and gooseberries not permitted to be shipped from Missouri into Kansas or Oklahoma.

GOOSEBERRIES

This is a valuable berry for planting and while the berries are rather difficult to pick on account of the spines and because the berries are very acid they require lots of sugar, yet there are but few people who will pass up a piece of gooseberry pie when mother makes it.

CHAUTAUQUA-A stocky growing new variety productive of large berries.

Each 10

Price 1-year plants.....30 \$2.50

HOUGHTON-Fast growing and very productive of medium sized berries.

GRAPE VINES

Our grape display at Missouri State Fair has won many plate premiums and for four years in succession we have won first on best collection--1920-21-22-23, and the display made by my successor at Boonville won first in 1924--making 5 years straight. In 1925 we won first on plate of Concord and 3rd on display, Carthage grown. This is the last offering of the Boonville stock.

CONCORD-This is the old stand-by. The standard of perfection that all others are compared to. More largely planted than all others combined.

	Each	10	100	1000
Price, 2-year.....	\$.15	1.25		
Price, 1-year.....	.15	1.00	5.00	40.00

MOORE'S EARLY-A large black grape. Ripens about 10 days ahead of Concord. A popular variety.

	Each	10	100	1000
Price, 2-year.....	\$.20	1.50		
Price, 1-year.....	.15	1.00	6.00	50.00

CAMPBELL'S EARLY-A large black variety that produces very large compact bunches. Is more productive and we consider it a much better variety than the Moore's Early.

	Each	10
Price, 2-year No. 1.....	\$0.25	2.00

BRIGHTON-A fast growing variety. Produces large bunches. It is the sweetest and best table grape grown—the one that bees are very partial to.

	Each	10
Price, 2-year No. 1.....	\$.20	1.50

NIAGARA-A vigorous growing vine, producing very large cream-colored grapes. The most popular white variety.

	Each	10
Price, 2-year.....	\$.25	2.00

CAWTABA-An old variety that ripens late. A red grape of very fine flavor.

	Each	10
Price, 2-year.....	\$.25	2.00

WORDEN-A vigorous grower productive of large well shouldered bunches of most excellent flavor. Ripens ahead of the Concord and is one of the very best varieties of black grapes grown.

Each 10

Price..... \$.20 1.50

Note: All 2 yr. vines are from our old vineyard at Boonville, that produced the first premium collection 5 years in succession at Missouri State Fair. The 1-yr. Concord is from cuttings taken from The Williams Vineyard near Carthage, which is under the care of the State Experimental Station at Mt. Grove. The 1-yr. Moore's Early are from the B. H. Esterly vineyard, (one of the very best in Jasper County.) The Moore's Early from this vineyard won second premium on best plate at Sedalia this year under big competition.

ORNAMENTAL SHRUBS

People are planting more shrubbery each year. To make a home complete it must be planted and adorned with flowers and shrubs. To meet this demand we have added a few ornamental shrubs of the best varieties.

"Beautiful Lawns and Fruitful Gardens Make Happy Homes."

SPIREA ANTHONY WATERER-A dwarf growing variety and a continual bloomer all summer and fall of very small, delicate flowers.

Each

Price, 18-inch, 3 yr..... 75c

Price, 12-inch, 2 yr..... 50c

SPIREA VAN HOUTI (or Bridal Wreath)-This is the finest of all spireas.

Each

Price, 3 to 4 feet, 3 yr. 75c

2 to 3 feet, 2 yr. 50c

18 inches, 1 yr..... 25c

HYDRANGEA ASBORESCENS (Hills of Snow)-A free bloomer that lasts a long time. A native of Ohio. A fine shrub.

Each

Price, 2 to 3 feet, 3 yr 75c

18 to 24 inches, 2-yr 50c

HYDRANGEA PANICULATA-Produces very large flowers late in summer.

Price, 2 to 3 feet, Each**.75**
 18 to 24 inches, Each**.50**

BUTTERFLY BUSH-(or Summer Lilac)—This shrub is coming into favor more and more. Its flowers on long stems are very delicate and pretty. It is a continual bloomer. Sometimes winter kills to the ground but will come again and bloom just the same. Strong bushes.

Price, 2 to 3 feet, Each**.75**
 2 feet, Each**.50**

BARBERRY THUNBERGI-This is a beautiful shrub either planted single or as a hedge foliage Hangs on all winter and changes to a red color and bears red berries which also hang on all winter.

Price, 3-year 12 to 18 inches, Transplanted, Each... **.30**
 2-year 10 to 12 inches, Each**.20**

RED LEAF BARBERRY-A new novelty offered this last fall for the first time. The plants grow the same as the Thunbergi but the leaves are a scarlet red all the time. A beautiful and attractive plant. Very highly recommended by eastern nurserymen.

ROSES

“The Queen of Flowers.” The roses offered were grown in California near Los Angeles. They are desert climate, field-grown plants on their own roots (not budded stock) strong, vigorous plants (not the small greenhouse potted plants) but are plants that will bloom the first year. The very best plants you can buy. Try them.

Those marked (H. P.) are hybrid perpetual—(H. T.) Hybrid Tea Roses.

MME. CAROLINE TESTOUT(H. T.)—Clear, bright satiny pink. A free bloomer. The rose that made Portland, Oregon famous as the “Rose City.”

Each75

FRAU KARL DRUSCHI(H. P.)—A vigorous grower, long pointed buds: pure, snow-white, blooms large. One of the largest and best white roses.

Each75

RED RADIANCE(H. T.)—An extra fine red rose very fragrant. Each75

LOS ANGELES(H. T.)—One of the finest American roses ever introduced; color, luminous flame-pink, tones coral shaded translucent, gold at base of petals, fragrant flowers on strong stems.

Each \$1.00

SUNBURST(H. T.)—Deep yellow with orange yellow center. Large, full and beautiful.

Each75

NEW VARIETIES (H. T.) VERY FINE

SOUVENIR DE CLAUDIUS PERNET—This is considered by florists the finest yellow rose in the world today. Each \$1.00

CLIMBING ROSES

CLIMBING AMERICAN BEAUTY—Heavy, strong grower, hardy everywhere. Color, rich red passing to orange. Each75

CRIMSON RAMBLER—A popular well-known rose. Needs no description.

Each50

CLIMBING SUNBURST—A strong vigorous grower. The flower is the same as on the bush form.

Each75

PAUL'S SCARLET CLIMBER—One of the highest colored roses grown. A flame of scarlet when in full bloom. Each75

FLOWER DEPARTMENT

We are not professional florists, but are growing in a small way as a side line to our business, a few flowers such as Gladiolus, Dahlias, Cannas, Iris and Phlox. Doing this partly for our own pleasure in trying to improve the looks of our grounds and also to have a variety of things for sale to our customers who may want something along this line. Making very low prices to close out our surplus bulbs.

GLADIOLUS

This is an easy flower to grow and is a most beautiful one. Nothing finer for cut flowers, all it lacks is odor. By planting at several different times you can extend the blooming season for a long period.

AMERICA - This is probably the universal favorite of the named varieties. Very vigorous, strong, healthy bulbs White and pink.

	Each	12	100
Price for strong bulbs	5c	30c	\$2.00

MRS. FRANCES KING-A strong grower. Long spikes of flame pink flowers. Won second premium on vase at Missouri State Fair, 1925.

	Each	12	100
Price.....	5c	50c	\$2.50

PURITY-A pure white variety, very pretty.

	Each	12	100
	5c	25c	\$1.50

PRIMULINUS HYBRIDS Vaughans Mix-Very fine delicate flowers, light colors.

	Each	12	100

Price.....	4c	30c	\$2.00

MEDIUM SIZE BULBS MIX-

	Each	12	100
Price.....	2c	25c	\$1.00

DAHLIAS

Our Dahlias now two years in succession have not grown right. Dahlia growers tell us that it is wire worms in the soil. We have lost a number of choice varieties entirely, so only have two varieties for sale this spring. Going to try growing this year on a different location.

C. W. BURTON-A strong growing variety with large yellow flowers. Fine late variety.

	Each	10
Price per tuber.....	\$.25	2.00

DELIGHTED-Pure white show Dahlia. Very large. Strong growers.

	Each	10
Price per tuber.....	\$.25	2.00

CANNAS

Cannas are growing in popularity each year with the new improved varieties. With their large and attractive bloom and the tropical effect of their foliage they brighten up and make a lawn very pretty and well repay all they cost.

KING HUMBERT-Bronze foliage. Grows three to four feet high. Is a free bloomer and produces large red flowers.

	Each	12
Price, bulbs.....	\$.15	1.00

YELLOW HUMBERT-A sport from King Humbert. Green foliage. Is a continual bloomer of the finest yellow flowers. When you have this variety you need no other yellow, for it is the whole show.

	Each	12
Price.....	\$.15	1.00

LOUISIANA-Has green foliage. Grows four to six feet high. Is a continual bloomer till frost of very large bright red flowers that make a fine display.

	Each	12
Price	\$.15	1.00

PRESIDENT—Green foliage. Two to three feet high
Is a profuse and continual bloomer of very large scarlet
red flowers. Each 12

Price..... .15 \$1.00

Note: This past year was a peculiar season with Cannas.
They done no good till fall. The crop of tubers is short
all over the country.

IRIS

This is a pretty flower that blooms early. By plant-
ing Iris Germanica different varieties, the Siberian Blue
and the Japan Iris, different varieties you can have a
succession of flowers that will last for six weeks. They
bloom in the order named.

IRIS GERMANICA—Aurea. Yellow and Bronze.

Each 12

Price..... .10 \$1.00

IRIS GERMANICA--Madam Chereau. Blue and
white. Each 12

MEET THE NEW APPLE—THE DR. PAILLOU

See back cover for Illustration.

Under this title Dr. E. R. Paillou tells the story of this new variety in his recent book "Home Town Sketches." It seems that the doctor while working on his little fruit farm in Jefferson County, Missouri found four sprouts growing out of the stump of an old apple tree, coming from below the original graft. He cut out all but the most vigorous one and four years later, the new tree began to bear large, beautifully red apple of surpassing flavor.

At first the doctor called it the "Red Bird," but, finding this name in use, he decided to keep the name by which it was known among his friends, the "Dr Paillou." Three years ago the doctor had us propagate a hundred trees from the original for his own orchard and for distribution among his friends.

Since the publication of the story in "Home Town Sketches," so many inquiries have been made about the new apple that the Jenkins Nursery was chosen to propagate and distribute the young trees. The doctor has stipulated that the trees be sold at a fair price and with no restrictions as to scions. There are neither royalties nor advertising campaigns to be paid for by the buyer.

The Dr. Paillou tree is a vigorous grower, has dark wood, blooms April 1st to 10th. The apple runs from large to very large in size, has juicy, white flesh and the flavor is reminiscent of the Stayman and of the old Geniton at its best. The color, however, is superior to that of both of those good apples.

The fruit keeps well in a cool, dark cellar until April. It is aromatic but not a "perfumed" apple and hence not cloying to the taste. The tree bears four or five years after planting. A very limited quantity of the trees will be ready for the Spring planting of 1927.

Price No. 1 11/16, 5 ft. and up, Each.....\$1.00

APPLE TREES

When buying nursery stock how many men can tell one variety from another by their looks. Perhaps not one man in fifty can take a bale of assorted trees, separate and name each variety correctly. All have to depend on the honor and word of the man they buy from to get what they order. Who is the most likely to tell the truth? The irresponsible traveling salesman **HERE TODAY, GONE TOMORROW**, or the nursery man that grows them, who is permanently located and who is depending on the good will of his customers to build up his trade and who sells his trees direct. Use **some common sense when buying and planting an orchard.**

We have a nice small block of two year apples that are extra good. Straight well branched, will be carefully graded. The 11/16 will average six to seven feet. They are true to name. You can't find better trees any place and we are offering them at **practically wholesale prices** packed and delivered at the Express office or Freight depot here. These trees were grafted on branched seedlings. Each seedling making but one graft and the same method of grafting as is used by all nurseries. There is **"NO SUCH ANIMAL as a PATENT PROCESS GRAFT."**

VARIETIES-Yellow Transparent, Liveland Raspberry, Chenango Strawberry, Maiden Blush, Grimes Golden, Stayman's Wine Sap, York Imperial, Ingram, Jonathan, and Delicious.

OPEN FORUM

University of Mo., Columbia, 2-23-26

H. W. Jenkins & Son,

Gentlemen: Allow me to congratulate you on your splendid little booklet issued by you entitled "Retail Price List." It is very practical and should stimulate your sales. You may book us for a half dozen of the new apple "Dr. Paillou" delivery when ready.

Very truly,

T. J. Talbert, Prof. of Horticulture.

Note: The Dr. Paillou was delivered in November.

Day Creek, Oregon, 6-19-26

H. W. Jenkins

Dear Sir: I want to tell you of the excellent shape the Aroma strawberry plants shipped to me arrived in. Every one alive and green. Considering the great distance it is most remarkable. All doing fine. Thank you for the care in good packing and shipping.

Mrs. J. F. Van Allen.

Note: If our plants will go to Oregon, 3000 miles in good shape you need not be afraid to order them.

Walnut Grove Cemetery, Boonville, 5-14-26

H. W. Jenkins,

Dear Mr. Jenkins: Our roses and clematis are doing nicely. When they cover the pergola built where the old residence stood, the cemetery will be one of the prettiest in the whole state.

Wm. Mittelbach, Secy.

Butler, Mo., 4-17-26

H. W. Jenkins,

Dear Mr Jenkins: I want to thank you for the strawberry plants. They certainly were a nice bunch, well-packed and delivered in excellent condition.

C. H. McNay, Editor Butler Republican

Farlington, Kans. 4-8-26

H. W. Jenkins & Son,

Gentlemen: Please find check enclosed in payment for the following. The other shipment from you was fine. We are well pleased with your stock.

Sleeth Bros.

Boonville, Mo. 4-12-26

H. W. Jenkins,

Dear Friend: I take this opportunity to let you know that the fruit trees came thru in dandy shape. LATER 6-9-26, trees all alive but one. Pretty good, thank you.

R. E. Watts, Gardener

Carrollton, Ill., 4-24-26

H. W. Jenkins & Son,

Dear Sirs: I bought a few plants from you last spring and they came through in such nice shape and did so well I want to try a few more this year.

Harold A. Farrow

Delavin, Wis. 4-29-26

Mr. Jenkins: When I was living at Eldon, Mo. I bought Strawberry plants of you and they were so nice and did so well I want to try some here. Would you ship them so far.

Mrs. E. Autrim

Note: Wisconsin is not as far away as Oregon.

Versailles, Mo. 3-26-26

H. W. Jenkins,

Dear Sir: Some 12 years ago I bought my small orchard from you when you were at Booneville and it is now bearing fine fruit, so I want a few more trees.

H. E. Blacksten, M. D.

Appleton City, Mo 4-20-26

H. W. Jenkins & Son,

Dear Sirs: The strawberry plants you sent were extra fine in fact the best plants I believe I have ever seen.

Ira R. Franklin, Ed. Appleton City Journal

Curryvill, Mo. 5-17-26

Dear Mr. Jenkins: Please send me the following Cannas. Have always gotten such nice bulbs from you and hope you can fill this with your usual promptness.

Mrs. G. E. Horton

Windsor, Mo., 5-10-26

H. W. Jenkins & Son: I had such good luck with the grape vines bought of you several years I now want some strawberries.

Yours,

Mrs. Geo. R. Allen

Carthage, Mo., 3-16-26

H W. Jenkins.

Dear Mr. Jenkins: I want to thank you for pruning up the shrubs in my lawn because I feel that the work has been done right

Yours sincerely,

F. N. Jones.

Cabool, Mo., Star Route

H. W. Jenkins & Son,

Gentlemen: The strawberry plants purchased of you last March arrived here in first class condition. They were the same high class plants like I have received from you in former years, large and vigorous. They made a big growth the past season.

Respectfully,

F. H. Shannon

Seitz, Mo., 12-28-26 .

H. W. Jenkins & Son,

Gentlemen: The strawberry plants received from you last spring arrived in perfect condition and I have a wonderful prospect for a good crop the coming season. I can highly recommend your plants to be of the best.

Yours,

D. E. Lichias

Note: If you doubt the above testimonials being genuine write to these parties and find out.

H.W.G.
A NEW APPLE

The Dr. Paillou

Dr. E. R. Paillou, a prominent and well known physician of St. Louis (office in DeMenil Bldg.) who was born and raised at Boonville, Missouri, and who is well known throughout the central part of this state, owns a fruit farm at Sunny Side, Jefferson County, which is under the direction of Alex Brachen. The Doctor bought this place a number of years ago and found on it an old worthless apple tree which soon died down to the ground but sent up four new sprouts from the roots. These the Doctor had three of them cut out leaving the most vigorous to grow and make a new tree. This came into bearing some four years ago and the apples proved to be entirely different from the old original tree. The new tree producing such a wonderful crop of large red apples so attractive in appearance, size and quality that it so pleased him and his friends that he decided to name it for himself. He has placed it in our hands to propagate and disseminate it.

Any man who wants a new fruit to bear his name to perpetuate his memory after he is dead and gone must think he has something extra good to hand down to posterity so we have confidence in this new apple. We feel that it will prove a valuable addition to the list of good varieties and will take its place along the side of the famous Dr. Stayman's wine sap, and we are glad to have a part in its introduction.

We are not going to spend a fortune trying to bring it before the people and then try to sell it at an exorbitant price to get our money back. Neither are we going to "hog" the public by placing any restrictions on its sale. When a man buys a tree and pays for it then it becomes his property to do with it as he pleases.

A very limited number of trees will be ready for sale in the Fall of 1926 and Spring of 1927.

APPLE TREES

We have a small block of one year apple trees that are extra good considering the dry season of 1925. These were grown from scions cut from bearing trees around Carthage. Plant one year apple and train it into a tree that suits you.

The very best of their class. All dormant roots. We expect to increase our plantings of Cannas and become headquarters for these bulbs in Southwest Missouri.

KING HUMBERT—Bronze foliage. Grows three to four feet high. Is a free bloomer and produces large red flowers.

	Each	12
Price, bulbs.....	15c	\$1.00

YELLOW HUMBERT—A sport from King Humbert. Green foliage. Is a continual bloomer of the finest yellow flowers. When you have this variety you need no other yellow, for it is the whole show.

	Each	12
Price.....	15c	\$1.00

LOUISIANA—Has green foliage. Grows four to six feet high. Is a continual bloomer till frost of very large bright red flowers that make a fine display.

	Each	12
Price.....	15c	\$1.00

PRESIDENT—Green foliage. Dwarf in growth, only two feet tall. Is a profuse and continual bloomer of very large scarlet red flowers.

	Each	12
Price.....	15c	\$1.00

APRICOT—Color is a buff-yellow, base overspread with salmon-pink. Fine.

	Each	
Price.....	20c
